

Team Name: Serendipity

Team Project: Lirten Vacancy - Roadmap

Criteria	Completeness	Epic vs User Stories	Format	Priority
Grade	2/3	1/2	2/2	1/1
Reason	No user stories regarding the creation and posting of masterclasses. Roadmaps require expert scheduling first and admin posting approving is missing	A lot of user stories are crammed into a simple user story and it seems simple yet it's not		

#### Comments on User Stories

User Story Number	Comment
1.2	Define negotiation
1.6	Define negotiation
3	Entity is too vague, the sign up will differ greatly from one entity type to the other
3.3	It's not an epic but not a user story also. It's more of a feature. Divide it among multiple user stories each covering a small part
3.4	Same as 3.3
3.5	Same as 3.3 also it's of a 'high' priority
3	You did not define what a masterclass is or how to create it
